OUR DIGITAL DAY

Waking up The smartphone is browsed for snippets of information to get a quick insight into notifications and the main events during the night.

Breakast Using the tablet to browse through news, read emails and check social media

Commuting
Using the
smartphone to
browse through
the events of the
day to come

Work
Using the office
computer to keep
track of nes and
events on the
side, maybe after
having been
contacted
privately via the
smartphone.

Commuting Using the smartphone to pass the time and play a game. Maybe follow up one some last mails and or events

After dinner In parallel to discussions and or television, the tablet is used for further reading and keeping in contact with friends and family

Going to sleep Before going to sleep, the smartphone is used to check if anything intersting is ongoing that is worth staying up for
